VACANCY

LASER MACHINE OPERATOR

Our company requires a candidate who meets the following criteria:

Minimum Requirements

- Grade 12 (Matric)
- 2-3 years' relevant experience
- Knowledge of Trumpf Laser Machine
- Technical understanding
- Able to work shifts
- Own transport
- Available immediately

Key Responsibilities

- Responsible to print a schedule for the Bed Loader, so that they can load accordingly.
- Check every loaded plate for size, thickness, ID and the correct material.
- Check the cut on a regular basis. Bad cuts must be reported to the Shift Supervisor.
- Before a programme is started, check if there are any parts that can be added, only then can the programme be started on VDS.
- Any program that is parked may not be cut until the park has been removed.
- When a note is added, also add the date.
- The stock of nozzles must be checked and when any gas bottles are changed, it must be reported to the Shift Supervisor.
- If parts are damaged or cut, a NC must be booked immediately.
- Machine take over takes place 15 minutes before the end of the previous shift.
- When taking over from a previous shift, check for any damages or problems and report it to the Shift Supervisor immediately.
- The machine must be kept clean at all times and any problems must be reported to the Shift Supervisor.

Closing date: Tuesday, 31 July 2018

If you fit the criteria, please forward your CV to Iona (HR).

Only shortlisted candidates will be contacted and interviewed.

Directors: WJP Brand & JC Grace
